

**Town of Buena Vista
Public Works Department**

SIDEWALK REPLACEMENT PROGRAM

Does the sidewalk in front of your property appear to be in need of replacement?

The Town of Buena Vista offers a cost-sharing program designed to improve streetscapes and allow for property enhancement at a reasonable expense. The Town's policy to cost share 50/50 includes the removal and hauling of existing sidewalk, new concrete, equipment and labor. Sidewalk replacement work is scheduled during the construction season: May – October.

Following review of the sidewalk request and approval for the program, the walk will be measured. The Town of Buena Vista will solicit bid proposals from local contractors and work with the property owner to secure the highest quality product and workmanship as well as the best pricing available. As a property owner, you will have the option to accept or reject a proposal based on your ability to participate. If you choose to accept the proposal, you will be required to commit to a payment contract for one-half (50%) of the actual cost upon completion of the sidewalk replacement.

Please complete and submit the following information to the Town of Buena Vista Public Works Department, 755 Gregg Drive, to arrange for a sidewalk review. The Public Works Department will be happy to answer any questions you may have concerning this program.
